Step 4b: Narrative Underutilization Analysis

The Utilization Analysis Chart displays the County's workforce in non-sworn positions, taking into consideration community labor statistics and utilization, while considering data from the 2010 census for Lincoln County.
Review of the Chart reveals under-utilization in the areas of:

1. White Males in Administrative Support positions;

As the analysis relates to Number 3: The current staffing levels for these positions have not experienced turnover in this area since prior to the 2010 census.

The County's approach to addressing these particular instances of apparent under-utilization will be addressed in Objectives.
