For Planning Division review of development proposals (i.e., building permit applicants), applicants that will be using a private water source will be required to have the District 1 Watermaster verify proof of a legal water source and sign below.

Landowners are responsible for maintaining water sources, waterline easements, water rights, and wells. The information provided in this form does not guarantee that a water source will be available forever. Due to climatic conditions, water sources can decline and wells can go dry. The information provided by the District 1 Watermaster is the result of a search of Oregon Water Resources Department (OWRD) records and field inspections. Although a property may have water rights of record, if the water right has undergone five successive years of non-use it may be subject to cancellation under ORS 540.610. The official water right of record is kept in Salem at OWRD.

Building permit applicants who will be connecting to a local water district will be required to have the water district provider verify proof of service from the water district.
